At California Premium Mixers, we've been curating a well-rounded selection of fresh, handcrafted mixers for more than 25+ years. Since the beginning, we've stood on the belief that simplicity is the key to a flavor profile that lets the personality of the cocktail shine through. While our product quality definitely stands out, the flavors are designed to do just the opposite. Every ounce is formulated to blend in for a perfectly balanced cocktail - proving that the real power is in not overpowering.

And what pairs perfectly with every mixer in our lineup? An innovative dispenser designed to keep the balance flowing all the way through to the glass, finished with a sprinkle of brilliance from our Fusion Seasonings gourmet rim seasonings lineup!
